

Case/Power Supply Fan

120 mm, 3-Pin, Ball Bearing

Model
703307

Ideal for new systems, upgrades and replacements.

MANHATTAN® Case/Power Supply Fans are equipped with high-quality sleeve, ball or ceramic bearings to help deliver efficient, reliable cooling and quiet performance. Easily installed and offered in a range of sizes, MANHATTAN Case/Power Supply Fans help circulate cool air through the case to dissipate heat away from processors and components to reduce heat damage.

Reliable, Efficient Cooling Solution

Computers and their internal components can generate large amounts of heat during operation. Without reliable and efficient cooling, this heat can contribute to poor performance, lead to a shorter service life and possible system failure.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

Model
703307

Features

- Three-pin power connector for easy installation
- Ideal for new systems, upgrades and replacements
- Ball bearing delivers quiet, reliable operation
- Lifetime Warranty
