

## Cottontips™

### PRODUCT DESCRIPTION

The **Cottontips™ Swab** consists of cotton fibers which are tightly wrapped around a wooden handle. Because of the tightly wrapped head, there is very little linting. These swabs have excellent absorbency, as well as high strength especially when saturated with water. This swab is designed for cleaning applications where absorbency is critical.

- Tightly wrapped head construction
- High strength , durable head for rigorous cleaning
- Low linting
- High absorbency capacity and rate
- Good solvent compatibility

### TYPICAL APPLICATIONS

The **Cottontips™ Swab** can be used to:

- Clean equipment and machinery, especially in small crevices or openings
- Remove flux residues from PCBs
- Apply adhesives or cleaning fluids
- Absorb liquid chemical residues

### COMPATIBILITY

**Cottontips™ Swabs** are compatible with most common solvents such as isopropyl alcohol, methanol, and ketones such as acetone. The cotton head is also compatible with bases and weak or dilute acids.
