

OKY3069

Product Name:DHT11 20%-95% Temperature Humidity Sensor Module For Arduino

Product Module: OKY3069

Product Description:

1. Can detect ambient humidity and temperature.
2. Sensors using DHT11.
3. Humidity measuring range: 20% -95% measurement error: + -5%.
4. Temperature measurement range: 0 -50°C measurement error: + -2°C.
5. Operating Voltage: 3.3V-5V.
6. Output form: Digital output.
7. PCB size: 3.2cm * 1.4cm.
8. Weighs: about 8g.

Package Included

Packing List	Qty
Temperature Humidity Sensor Module	1
