# TOUCH SCREEN UNIVERSAL TV REMOTE CONTROL

## SEARCHING FOR THE CORRECT CODE AUTOMATICALLY

- 1) Power on your TV.
- 2) Point the controller at your TV set. First press the SET UP button, then release the button when the light is on..
- 3) Press the '+' or '-' button of volume, release the button when the light is on. This is now searching for the correct code automatically. Once the volume has either increased or decreased, press the SET UP button to confirm.
- 4) The Power light should be off by now, this indicates that the set up is complete.

If the controller does not operate the other functions of your TV set, try the above steps again.

## SETTING THE CODE

- 1) See the supplied 'component code numbers' and find the correct 3 digit code for your TV.
- 2) First press the SET UP button continuously, then press the POWER button and release both buttons together. At this time the light is on, indicating that the controller is ready to be set up.
- 3) Enter the 3 digit code for your TV. At this time the led light will be on. If the light flashes twice, you have entered the wrong code. Re-enter the 3 digit number.
- 4) When the led light is not on, the set up is complete and is ready to use.

### NOTE:

Please do not take more than 15 seconds to enter each number when setting your remote up initially.

## SEARCHING FOR THE CORRECT CODE

If you have tried all the code numbers listed and you still can not get the controller to work (or your TV set is not listed), try the following steps.

- 1) Power on your TV.
- 2) Press the SET UP button continuously, then press the POWER button and release the two buttons at the same time. At this time the power light should be on.
- 3) Press the '+' or '-' button of volume, until your volume changes on the TV set.
- 4) Once the volume has been adjusted press the SET UP button.
- 5) At this point the power light is off, press the power button and check to see if all the functions are working correctly on your TV set.
